- Primary work:**
SoMe content, Video editing, website developing, photo editing etc.

About me

I'm a young but experience graphic designer, that loves to dive deep into learning new methods or areas of graphic design. My main focus is digital design but I have a growing interest in photography and video production as a hobby.

When I'm not working or playing around with my camera, I'm usually out doing social events, going to concerts or skating around.

My absolutely favourite way to reset and relax is spending time with my dad and brother listening to music and drinking whisky. It's a great way to have meaningful conversations and chill out from the usual stressful days.

I'm born and raised in Denmark with parents that while having different work fields, are both creative and that have had an effect on me and my way of thinking visually.

Award

Skills Denmark (Danish championship in Graphic design)

In January 2017, I participated in the Danish championship in skills. I was selected by the school board, and represented Aalborg Tech College.

A huge experience for a young graphic designer who tested my abilities and skills. It's a 3-day competition under fierce time pressure, skilled opponents and creative solutions. It is definitely the wildest thing I have tried, and an important part of what I am today.

I managed to create some products I was proud of, despite the time pressure. It resulted in ending up with a silver medal, that I'm very proud of achieving so early in my career as a graphic designer and in the age of only 19.

Volunteer work

2020-now

Nibe festival

Graphic Designer

Primary tasks:

Updating business area website, SoMe content, Design manual, Posters and ticket design.

2016

Hjælp mig (Help me)

AN IVY

"When a collaboration has lasted for several years, it's because it is a good one Christian is skilled, flexible and delivers insanely fast. We are always confident when we give Christian tasks, and will recommend him at any time."

- Nikolaj Dylsing and Alexander Gram (Owners of AN IVY)

AB Byggeprofiler

As a newly started company 4 years ago, we had a distinctive need to stand out, after using an external agency for the first 4 months, our company were so lucky that we got Christian out as a Media Graphic Designer, he was even excited for our different visual style.

During the student period, Christian was selected for Skills Denmark, where he got a 2nd place with 1 point difference from the winner. As a side benefit, we were about to lose Christian during his student days when Hummel (sports brand) was after him to their internal office, but I luckily "won" that match.

After Christian was apprenticed, he was offered the job as head of the company's marketing. Christian worked as our full-time graphic designer / marketing coordinator since August 2019. After completing his apprenticeship as a Media Graphic Designer that started in April 2016. During both the apprenticeship and subsequent permanent employment, Christian has handled all our graphic and marketing tasks. In which his latest initiative was to rebrand AB Byggeprofiler's visual identity, which we are incredibly happy about, and only receive positive reactions about.

Christian can solve any task and from idea to a finished concept in a short time. He manages to solve them at the highest level every time. His creative drive for the graphic world is magnificent and passionate. His sense of fine detail and results - is reflected, clearly in his work and his personality.

He is a solid employee who meets on time, he works to create great results every time, as well as learn new things - instinctively. He is not afraid to come up with new initiatives and take action when it comes to use. He is welcoming, customer-friendly and a good colleague who actively participates in social gatherings. Christian is independent and motivated to use his colleagues as a sparring partner. A team player both in the office and outside.

Christian gets my best recommendations, a young man he has become, with a huge drive, motivation, as well as immaculate abilities in the graphic arts. I have never wished for another person to take his position, he has built up our identity, designed it and with his desire to move forward in the world, I have suffered a loss.

Should any further information be required, I would be happy to assist.
